

IsaDermix Skin Renewal System

Innovations in Skin Fitness Technology

The advanced formulas in the IsaDermix™ Skin Renewal System are the result of our uncompromising commitment to offer innovative medical-esthetics-grade products that provide optimum benefits for skin health and fitness. The enhanced skin renewal system is a unique merging of leading-edge skin research, science and technologies, the latest discoveries in super-actives, ingredients from the field of skin biotechnology that have been clinically tested and proven for effectiveness, and the highest quality ancient and rare botanicals and phytonutrients for skin nourishment and renewal. This quest for the best has resulted in a skin health system that is unrivaled globally.

IsaDermix™ uses a patented process featuring magnesium oxide crystals to exfoliate and prepare the skin. A technologically superior liposome system delivers super-actives, antioxidants, vitamins, minerals, and botanicals to targeted areas of the skin to perform specific functions. These remarkable ingredients correct, renew, and protect the skin from cumulative daily damage to help prevent visible signs of aging.

Crystal Mineral Masque - For Crystal Clear Skin

The Masque is molded from the silica-rich red clay that cushions the famous high quality quartz crystals veins that run through the heart of the Arkansas Ouachita Mountains, where the spring water for our own Ionix Supreme™ Dietary Supplement is drawn from. Isagenix™ retained exclusive rights to this unique mineral clay to provide you with the best Masque available.

- Mineral nourishment for skin
- Lifts impurities away, combats blemishes
- Crystal clear complexion
- Improves texture and elasticity
