IsaFruits™ for Prevention

*PURE NUTRITION, WITHOUT THE SUGAR,
TO ENSURE A COLORFUL
BRIGHT FUTURE FOR YOUR CHILD*

Chronic disease affects every one of us and our families. We all have loved ones who have suffered. We're all at risk. Most Americans die from what the U.S. Department of Health and Human Services (DHHS) calls "an epidemic of unparalleled proportions."¹ Prevention is the best solution. Three lifestyle changes are absolutely necessary:

- Quit smoking
- Exercise and lose fat
- Eat more fruits and vegetables

Fruit is Essential

We don't eat enough fruit. 77 percent of Americans don't eat the 5 to 9 servings of fruit needed to stay healthy.^{1,2} Worst of all, 96 percent of our children are not fed enough fruit to stay healthy.^{1,2} Those are sickening numbers.

Why IsaFruits™

Don't risk your health. IsaFruits™ removes the guesswork—it's perfect for your fast-paced lifestyle for long-term health. IsaFruits™ contains every known natural, fruit-derived phytonutrient in one bottle—flavonoids, polyphenols, carotenoids, antioxidants, vitamins, minerals, adaptogens, fiber, enzymes, etc— from over 30 of the healthiest fruits available on the planet.

Children Love IsaFruits™

Don't serve sugar drinks to your children. They do nothing for their long-term health. Serve them an IsaFruits™ smoothie instead—easy with your IsaBlender™. Kids love its berry taste. Teenagers love how fast it is. It's pure nutrition, without the sugar, to ensure a colorful bright future for your child.

Red Fruits

Wolfberry, Tomatoes, and Guava are rich in lycopene to benefit skin, vision, lungs, and a healthy prostate in men.^{3,4} Raspberry is rich in ellagic acid. Cranberry supports urinary health. Cherries, Pomegranate, Acerola, Red Grape, and Red Apple are heart healthy.

Blue Fruits

Açai Berry and Blueberry benefit your mind and your entire body. Bilberry helps improve vision. Blackberry benefits your heart. Grape Seed, Plum, and Prune benefit your mind. Green Kiwi helps boost your immune system.

Yellow Fruits

Papaya has papain and is rich in folic acid and beta-carotene. Noni and Mangosteen help you adapt to stress and benefit your whole body. Mango, Apricot, Star Fruit, and Carrot benefit skin and vision. Apricot is rich in tryptophan. Passionfruit is rich in tartaric acid. Pineapple is rich in bromelain. Tangerine and Orange benefit your immune system.

Enzymes, Probiotics, and Fiber

IsaFruits™ enzymes guarantee high absorption and a probiotics blend helps boost your immune system. Apple Pectin, Rice Bran, Oat Bran, and Flaxseed supply fiber to benefit your heart and give the drink its smooth, hearty texture.

How is IsaFruits™ Processed?

The whole fruits used in IsaFruits™ are freshly extracted, concentrated, and converted to juice powders at low temperatures using today's newest technology so heat-sensitive nutrients are not destroyed. The rapid process conserves phytonutrients and ensures maximum effectiveness.
